<p>Number of buildings:</p> <p>Auditors should count all buildings that are part of the facility, whether inmates are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.</p>	12
<p>Number of inmate housing units:</p> <p>Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p>	7

Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, and observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

Prior to the on-site visit, Agency PREA staff conducted an on-site "pre-audit" of the facility to assist with PREA audit preparation. Prior to the on-site visit, the PREA Coordinator and facility staff forwarded agency and institution policies and supporting documentation, including the completed Pre-Audit Questionnaire, administrative reports, contracts, memorandums, brochures, staffing plans, training information, and other reference materials for examination. Policies and documentation are in the form of agency directives and policies. Updates of the Pre audit questionnaire, investigations and Institutional Supplements were also discussed prior to the beginning of the audit. The facility was provided with facility notices in English and Spanish prior to the onsite audit visit informing inmates of the scheduled audit date, which included my name and mailing address if they wished to send me correspondence. Inmates were informed correspondence would remain confidential. The facility information document was posted throughout the facility on July 13, 2021.

The on-site visit for the Prison Rape Elimination Act (PREA) audit of the South Bay Correctional and Rehabilitation Facility was conducted by certified auditor Robert Manville. The auditor completed the on-site review August 31 through September 2, 2021 and completed the document review on September 3, 2021. Upon arrival at the facility, an in-briefing meeting was held with the Warden, several department heads and support staff, and PREA compliance. The standards used for this audit became effective August 20, 2012.

Prior to beginning the tour the auditor requested and received a roster of staff on duty for the first shift, a roster of all inmates by locations, a list of inmates by the target population as found

in the auditor's handbook and copy or original PREA investigative files (the investigative files were locked from staff view until requested by the auditor). At 3:00 P.M. the auditor requested and received the second shift roster of staff on duty by job assignments. The tour of the South Bay Correctional and Rehabilitation Facility included the intake processing areas, all housing units, the restrictive housing unit, protective custody unit, the health services department, recreation, food service, facility support areas, education, visiting rooms, and programming areas.

During the tour, it was noted that there was sufficient staffing to ensure a safe environment for inmates and staff. Signs were posted (in English and Spanish) that indicated employees of the opposite gender were present in the housing units. Postings regarding PREA violation reporting and the agency's zero-tolerance policy toward sexual abuse and sexual harassment were prominently displayed in all housing units, meeting areas and throughout the facility. Audit notice postings with the PREA auditor's contact information were in the same areas. Inmates can shower, dress, and use the toilet without exposing themselves to employees of the opposite gender with the exception of two showers that were next to stair and did not have a curtain to provide privacy. This problem was corrected during the on-site audit.

Staff Interviews

Twenty-eight (28) randomly selected correctional staff members were interviewed. Correctional officers and shift supervisors from all shifts were included in the interview process. These correctional staff also included staff assigned to supervise housing units, utility staff, escort staff and crisis response team members. A total of six (6) random staff including maintenance, secretaries, and administrative staff were also interviewed. All were aware of the agency's zero-tolerance policy and could explain their new employee and annual PREA training and their duties as first responders as part of a coordinated response.

The Agency Director, Agency PREA Coordinator and Agency Contract Administrator had been previously interviewed (the auditor is in receipt of the completed interview questionnaires). Specialized staff members were also interviewed. This included the Warden, IPCM, two (2) Investigators, Human Resource Specialist, Restrictive Housing Supervisor, Retaliation Monitor, Medical Administrator, Mental Health Director, Case Manager Supervisor, three (3) Case Managers, Chaplain (volunteer supervisor) and victim advocate from Abuse Counseling and Treatment Crisis Center (ACT). All interviewed staff and contractors demonstrated an understanding of the PREA and their responsibilities under this program, relative to their position or roles with the organization and employment status. Other staff include the Florida Department of Corrections PREA Coordinator.

Inmate Interviews

A total of fifty one (51) inmates were selected to be interviewed. The interviewed inmates were of various ages, nationalities, and ethnic backgrounds. Inmate random interviewed inmates included inmates in every dormitory in the facility except for one dormitory that was on cohort status due to the inmate being tested for possible Coronavirus. An inmate that was housed in that wing the previous month was interviewed in lieu of interviewing inmates in cohort status.

The following targeted inmates were interviewed.

There were no inmates in Protective Custody for any PREA related issue. There were no inmates that identified as transgender during the intake process. The two disabled inmates are an older inmate that uses a walker, and one who is partially deaf and has a hard time seeing. The one legally blind inmate advised he was made aware of the audit. There is an inmate assigned to assist this inmate for day-to-day movement and provides reading services for any memos or directives that are shared with the inmate population.

Overall, all inmates interviewed demonstrated a good understanding of the PREA compliance program, the intake screening process, the prevention and protection process and reporting mechanisms. The inmates further stated that staff members were responsive to their needs and that they felt safe at the facility. The inmates with history of victimizations were offered follow up interviews with mental health staff. According to the Mental Health staff all inmates with history of predator behavior are offered Mental Health services. To date all inmates have declined the services.

Employee Files Reviewed

Twenty (20) employee training records were reviewed. Included in the employee training records were random monitors (direct care staff), supervisors, investigator, PREA compliance manager. All training has been completed in the last 12 months

Fifteen (15) background clearance files were reviewed including five (5) new hired staff, five (5) staff that had been promoted and five (5) employees that had over five years tenure at the facility. All background checks had been completed prior to contact with inmates or prior to promotion or over 5 years tenure at the facility.

Inmate Files Reviewed

Twenty-four (24) inmates' records were reviewed. These records included the following information.

- Identification Number
- Date of Birth
- Date of Arrival

- Date of Screening
- Date of Follow-up Screening
- Date of Initial PREA notification
- Date of PREA orientation

Investigations

There was a total of 15 reported allegations of sexual abuse/sexual harassment. This included 12 allegations of sexual abuse and three allegations of sexual harassment. All cases were investigated. Six cases of sexual abuse were investigated by the Florida Department of Corrections Inspector General Office. Nine (9) cases of sexual abuse/sexual harassment were returned to the facility for investigations. Four cases are ongoing. Three cases were determined to be unfounded; two cases were substantiated, and seven (7) cases were unsubstantiated. The four cases that are pending include three that are awaiting forensic examination results. If the allegations are substantiated, they will be forwarded to the local prosecutor for prosecution.

Facility Characteristic

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

South Bay Correctional Facility is located at 600 US Highway 27 South, in South Bay, Florida, in Palm Beach County approximately, 55 miles west of West Palm Beach. There are approximately 21 acres inside the secure perimeter and approximately 80 acres outside the perimeter.

The facility consists of the following buildings: A large multi-functional building that houses administrative offices, training area, medical unit, intake/receiving area, vocational program areas, food service, laundry, maintenance, and the segregation unit. Other buildings include four double occupancy cellblock-housing units each with a capacity of 250 inmates and two larger housing units that can house 296 inmates.

Building E is an open-bay dormitory that houses the facility's Therapeutic Community (drug treatment program) that houses 270 inmates and can house up to 352 inmates. Building A has 5 general population double cell living units with a capacity of 250 inmates.

Building B has 5 general population double cell living units with a capacity of 250 inmates. Building C has 5 general population double cell living units with a capacity of 250 inmates. Building D has 5 general population double cell living units with a capacity of 250 inmates. Building G has 5 general population double cell living units with a capacity of 296 inmates.

Building H has 5 general population double cell living units with a capacity of 296 inmates.

All buildings are very similar in styles. Each floor has a showering area with curtains except for one living unit that has the shower located next to the stairs going to the second floor. This area did not have shower curtains and inmates could not take a shower without being viewed by staff. The facility installed curtains in these showers during the audit. This was verified by the auditor during the onsite audit.

There is a day room area located on the first floors of each unit. This area included telephones, kiosk, bulletin boards, televisions, and tables. The bulletin board includes Florida Department of Corrections Sexual Abuse Awareness, Zero Tolerance, ABS Counseling and Treatment and GEO PREA information Posters. Each bulletin board also included information of the PREA Audit with dates of the onsite tour and auditor's address. The telephone number listed to call and report PREA related information on the Florida Department of Corrections, the ABS telephone and the GEO postings was called during the tour in two living units and were answered by a live voice.

The Administrative Segregation unit has four (4) wings. Two of the wings have a capacity of twenty (20) and the other two (2) have a capacity of eighteen (18), totaling a capacity of 76 beds for administrative confinement, disciplinary confinement, or self-harm observation status inmates. The segregation unit includes an outdoor covered recreation area. After clearing the security system, visitors can go to the control room located in the administrative building and show proper credentials to receive a visitor pass.

Due to a cohort of 4 living units within the one previously mentioned dormitory, the facility video cameras of each unit were reviewed to provide the auditor with the placement of cameras, showers, telephones, bulletin boards and a panoramic scan from the upstairs and first floor of the units. These areas were compliant with PREA standards for information sharing, reporting mechanism, staffing, areas to change and shower without being seen naked by person of the other gender.

The industry building houses a Graphics and Print Shop managed by Prison Rehabilitative Industries and Diversified Enterprises, Inc. (PRIDE). This program has operated at South Bay CF since November 2006. In addition, The Image Validation Program employs up to fifty inmates, where inmates verify license plate numbers with video from turnpike tollbooth cameras. There were PREA information posters located in the maintenance shop. The restrooms in this area have doors to provide privacy for inmates using the toilet.

When entering the housing units there are case manager offices, a multipurpose room, a satellite medical office and in some units a mental health office, in a long hallway before entering the housing area. There is a housing control station in the housing units where staff posted in this area control movement in and out of the individual pods. Doors into each building are controlled from the facility's main control station.

There are two large recreation yards, north and south. Inmates exit and enter these areas through a metal detector. These recreation yards have cameras, basketball hoops and covered tables. There

is also a large gymnasium located on this compound. These recreational areas also include an activity center, exercise equipment, hobby craft rooms and an outside recreation area. Zero-tolerance posters are located throughout the recreation area. The bathroom areas in each of the recreational areas include partitions to provide privacy.

The restrictive housing unit includes segregation and disciplinary isolation. Inmates in restrictive housing units receive daily visits from medical and mental health staff, are allowed 1 hour a day of outside recreation and are provided access to telephones for PREA allegation reports or to call the victim advocate for emotional support and paper and pencil and grievance forms.

The Health Services Department contains treatment rooms, a pharmacy, an X-ray room, and dental offices. There is a bulletin board that contains PREA information located in the waiting area. There are correctional officers assigned to the health care area, whenever inmates are in this area. The Infirmary is staffed with a correctional officer 24 hours daily. The health services program is staffed 24 hours per day, seven days per week. The clinic area is located to provide easy access to the inmate population. There is an infirmary at the facility and local hospitals are used for treatment of life-threatening conditions.

The Receiving/Discharge area has an intake area for orientation and initial intake. Upon arriving at the facility inmates are individually taken to an office for shake down and to be issued clothing. There is a partition for inmate's privacy during the shakedown. There are other offices located in this area which allow private interviews to be conducted. There were Florida Department of Corrections Sexual Abuse Awareness, and Zero Tolerance posters posted as inmate enter the receiving area.

The Education area contains classrooms and support services. The Education department provides various programs for the inmates, including:

- General Educational Development (GED)
- Adult Continuing Education (ACE)
- English as a Second Language
- Law Library
- Leisure Library
- Computer Center

The Psychology Department contains a small conference room and individual offices for staff. There is a bulletin board that includes several information posters for inmates and a hotline number for PREA complaints.

The Religious Services Department consists of a chapel area, group rooms, music area and offices. There were PREA posters located in the religious services hallway and in the front entrance area. There were no blind spots noted in this area.

The Food Service Department has a large dining room with a food service preparation area attached. Except for the staff dining room, all areas of food service are under constant surveillance with cameras, mirrors, or staff supervision. There are zero-tolerance posters in all

food service areas.

The Laundry is supervised by correctional staff and employs inmate workers. The laundry is under continuous supervision and is monitored by cameras and mirrors. The laundry area had a bulletin board with PREA information including zero-tolerance and PREA audit notices.

The Visitation Room is a large seating area with no blind spots noted. It is under supervision of staff whenever inmates and their visitors are present. There are private offices located in this area. There was PREA information located in the visitation room. Located next to the visitation room is a private area that is used to conduct strip searches of inmates following visitation.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following policies, directives and documentation was reviewed in formulating compliance with this standard:

Florida Department of Corrections (FDC) 602.053 Sexual Abuse/Assault Prevention and Intervention Program

Memo designating Florida Department of Corrections PREA Coordinator

South Bay Correctional and Rehabilitation Facility organization chart

GEO Policy 5.1.2-A Sexual Abuse/Assault Prevention and Intervention

GEO Organizational Chart

Florida Department of Corrections published 602.053 Sexual Abuse/Assault Prevention and Intervention addresses this standard. The policy/procedure mandate a zero tolerance toward all forms of sexual abuse and sexual harassment. The policy/procedure included outlines, procedures and expectations related to approaches to preventing, detecting, and responding to sexual abuse and sexual harassment. The policy also included sanctions for staff and inmates found to have participated in prohibited behaviors. Staff members who are found to have perpetrated sexual abuse or sexual harassment are disciplined in accordance with Employee Discipline policy and Facility Rule of Conduct and subject to employment termination. Employees are subject to criminal prosecution. The policy includes a description of the agency strategies and responses to reduce and prevent sexual abuse and sexual harassment of inmates. Inmates who are found to have perpetrated sexual abuse or sexual harassment are disciplined in accordance with sanctions outlined in the facility's inmate handbook. Florida Department of Corrections has promulgated additional policies, procedures, codes, and memos to provide supplements for the agency or contracting agencies approaches to prevent, detect, respond, and investigate sexual abuse or sexual harassment.

GEO Policy 5.1.2-A Sexual Abuse/Assault Prevention and Intervention and a facility organizational chart meet the requirements of this standard. The agency's zero tolerance against sexual abuse is clearly established and the policy outlines the agency's approach to preventing, detecting, and responding to sexual abuse and sexual harassment allegations. GEO employs an upper-level, agency-wide PREA Coordinator at the corporate level. The agency's organizational chart depicts her position within the agency. The PREA Coordinator oversees the agency's efforts to comply with the PREA standards in all of GEO's facilities. GEO ensures that all its facilities have a PREA Compliance Manager with sufficient time and authority to coordinate the facilities PREA efforts. The facility's organizational chart illustrates the PREA Compliance Manager's position within the facility. SBCRF provides support staff for assisting the PREA coordinator with his task in carrying out the PREA mandates from GEO. The administrative team meets on a regular basis to develop strategies to establish a culture that provides a safe environment for staff and inmates. Throughout the tour, staff, and inmates knew the PREA compliance manager's name and role at the facility. Both the GEO Group PREA Coordinator and Facility Compliance Manager advised they have sufficient time and authority to coordinate efforts to comply with PREA standards. The facility provides additional

support for PREA related investigations, policy reviews, mock audits and follow up to cooperate office PREA coordinator's office questions or concerns. Yearly GEO conducts a PREA review of the facility to determine level of compliance and to identify concerns that need to addressed by the PREA compliance manager and the facility warden.

The agency and institution policies outline a zero-tolerance policy for all forms of sexual abuse and sexual harassment. Inmates are informed orally about the zero-tolerance policy and the PREA program during in-processing and additional admission and orientation presentations. The orientation is offered in English and in Spanish. Additional program information is contained in the Inmate Manual, and postings distributed throughout the facility (observed during the tour). All written documents are available in English and Spanish. Additional interpretive services are available for inmates who do not speak or read English. Both institution staff and inmates are provided with a wealth of opportunities to become aware of PREA policies and procedures. All employees receive initial training and annual training, as well as updates throughout the year. The institution meets the standards with all the programs they have implemented to ensure the inmates and staff understand its position on zero-tolerance. Compliance was determined by review of agency organization chart, agency, and facility policies, both staff and inmate training orientation power point presentations, posters, inmate manual and interviews with staff, contractors, volunteers, and inmates further provided compliance with this standard.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following policies, directives and documentation was reviewed in formulating compliance with this standard:

GEO Policy 5.1.2-A Sexual Abuse/Assault Prevention and Intervention
Client Contract
Statement of Fact

The facility does not contract with other entities to house inmates. A review of the documentation submitted substantiates that the Florida Department of Corrections requires the entities which they contract for the confinement of inmates (privatized prisons or residential reentry centers or "halfway houses") to adopt and comply with the PREA standards. Compliance was determined by review of facility contract agreement and interviews with the GEO Group PREA Coordinator, Florida Department of Corrections PREA coordinator and Agency Administrator.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following policies, directives and documentation was reviewed in formulating compliance with this standard:

Florida Department of Corrections 602.053 Sexual Abuse/Assault Prevention and Intervention Program FDC Policy – 602.030 – Security Staff Utilization
 FDC Policy – 602.033 Video Camera/Housing Unit Fixed Camera Digital Video Maintenance and Retention Post Order – 03 – Shift Supervisor
 PREA Annual Facility Assessment
 Staff Rosters
 South Bay Correctional and Rehabilitation Facility Schematics
 Unannounced Rounds

FDC Policy – 602.030 – Security Staff Utilization and GEO Group requires the facility to review the staffing plans on an annual basis. Interviews with the warden and executive staff revealed

compliance with the PREA, and that other safety and security issues are always a primary focus when they consider and review their respective staffing plans. The facility has a Staffing Report that is developed for each pay period. The Prison provides the bimonthly reports that includes mandatory post and hold over staffing to meet the mandatory posts. This report also includes the number of positions authorized, the number filled, the number vacant, recruitment efforts and any staffing concerns during the pay period. The Warden meets weekly with his executive staff, including Chief of Security, Lieutenant, and the Human Resource Manager (HRM) to address staffing issues as they relate to the PREA. The latest staffing plan was reviewed in November 2020. The staffing plan is provided to the facility compliance manager and GEO Group PREA coordinator. During the 2019 review it was determined the facility needed additional staffing due to a modification in the contract which included additional programming for inmates.

The institution has been provided with all necessary resources to support the programs and procedures to ensure compliance with the PREA standards. The audit included staff interviews, and rosters. Supervisory and Administrative staff members routinely make unannounced rounds. These rounds are documented in Unit Logs located in each housing unit.

There have been no judicial findings of inadequacy from federal investigative agencies or findings of inadequacy from internal or external oversight bodies relevant to this standard. All essential posts are filled each shift and no essential posts are kept open for salary savings. When programs are offered, staffing is increased to provide additional supervision.

Staffing shortages have been a major concern for the facility based on the warden and shift supervisors' interviews. The facility is mandated by contract and GEO expectations to maintain all mandatory post be manned. In order to accomplish the requirements, the facility has established overtime, call back, redeploing no mandatory staff to maintain the mandated staffing profile. The warden indicated that he receives an updated staffing daily and after the start of each shift the number of staff that are requested to work overtime is forwarded to the warden. The Florida on site monitor receives this same information and relayed that the facility has met the mandatory staffing during the pandemic.

The review of Institution Duty Officer (IDO) unannounced PREA rounds logs confirmed that intermediate-level or higher-level supervisors, including shift supervisors and department heads, conduct and document such visits throughout the institution, during the day, at night and on the weekends. Additionally, the IDO was interviewed. IDO visits areas of the facility during days, evenings, and weekend. The IDO documents the visits on logbooks located in housing unit control room. Staff members are prohibited from alerting other employees regarding unannounced rounds. Interviews with inmates and housing unit officers also confirmed that random, unannounced rounds are conducted by Institution Duty Officers daily, including nights and weekends. The administrative Lt. for each shift was interviewed. Each indicated that they visit each living unit a minimum of once per shift. The control room staff document these visits on the unit log. The facility provided a page from one of the logbooks that documented that a Captain visited the unit on each shift. An examination of policy and supporting documentation and all interviews confirms compliance with this standard. The last PREA assessment by GEO was May 2021.

Compliance was further determined by staff interviews conducted during the tour of all areas of the facility and interviews with the Chief of Security, Warden, IPCM, Human Resource Manager and Correctional Staff; reviews of documented staffing rosters, daily supervisory checks, and facility workforce meeting records; pay period staffing reports and the examination of the video monitoring system. A comprehensive tour of the facility was conducted during the audit that included looking for blind spots, reviewing cameras coverage and available staff in areas that inmates are assigned. A detailed review of the cameras was conducted by the auditor during the onsite tour. It was determined that the additional cameras and mirrors has enhanced the facility and reduced the blind spots where possible.

This discussion must also include corrective action recommendations where the facility does not meet the standard. The following policies, directives and documentation was reviewed in determining compliance with this standard:

Florida Department of Corrections (FDC) 602.053 Sexual Abuse/Assault Prevention and Intervention Program
FDC Training Curriculum
SBCRF staff training rosters
Strip Search Log
Gender Announcement
Privacy Notices – Female Staff
Transgender Care Summary
Transgender Search Preference Form
Statement of Fact

Florida Department of Corrections (FDC) 602.053 mandates that cross-gender strip or cross-gender body cavity searches are prohibited, except in emergency situations or when performed and documented by a medical practitioner. Officers are required to document all cross-gender strip searches and cross-gender visual body cavity searches. All security staff of the South Bay Correctional and Rehabilitation Facility receive training on how to conduct cross-gender pat searches and searches of transgender and intersex inmates in a professional and respectful manner. Staff receive Limits to Cross Gender Viewing & Searches training. The lesson plan of this training was provided for review. Staff sign a PREA Basic Acknowledgement form acknowledging receipt and understand of the training received. Review of random staff training records and in interview with security staff, revealed staff are receiving this training at pre-service and annually. Interviews with staff confirmed that they were aware of the prohibition of visual body cavity or strip searches of the inmates of the opposite sex except in exigent circumstances.

Staff interviews indicated they received cross-gender pat search training during initial and annual training. The auditor observed that each unit has individual shower curtains for privacy. The facility has implemented a policy that all opposite gender staff working the units will announce themselves prior to walking the range to allow inmates the opportunity to prepare themselves from a privacy perspective. Inmates interviewed acknowledged they were allowed to shower, dress and use the toilet without being viewed by staff of the opposite gender. Postings are located throughout the living units that female staff are assigned to work in housing units. The facility maintains a log for staff of the other gender that announce their

presence when entering housing units. The facility also maintains a log of all strip searches. This log indicates date, time, purpose and inmate's gender and gender of persons conducting the strip searches. A review of the strip search log revealed there have been no cross gender searches by non-medical staff in the last 12 months.

Staff and most of inmates interviewed indicated employees of the opposite gender announce their presence before entering a housing unit. Unit staff also announce the possibility of opposite gender staff entering the housing units at the beginning of each shift. Additionally, the auditor observed written notifications which clearly stated the possibility of opposite gender staff routinely entering the units posted in the unit common areas. The postings were written in both English and Spanish. Staff members were aware of the policy prohibiting the search of a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. The living areas showers have curtains that provides for inmate privacy while showering. Toilet areas have partitions with door to allow inmates to use the restroom without being viewed by staff. During the tour two showers did not provide privacy. The facility installed curtains during the on-site audit to comply with this standard. Based on the review of policies and notices regarding the presence of female staff in the units, observation of the showering/dressing areas and interviews with staff and inmates it has been determined that South Bay Correctional and Rehabilitation Facility is in compliance with this standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following policies, directives and documentation was reviewed in determining compliance with this standard:

Florida Department of Corrections Procedure 602.053 - Sexual Abuse/Assault Prevention and Intervention Program
Florida Department of Corrections Procedure – American With Disabilities Act for Inmates
GEO Policy 5.1.2-A Sexual Abuse/Assault Prevention and Intervention
Inmate Handbook
TTY Tablet
Staff Training
Roster of bilingual staff
Memo of Record
Language Line Contract
Photographs of PREA Poster
Staff Translator List

Florida Department of Corrections 602.053 Sexual Abuse/Assault Prevention and Intervention Program mandates that the facility shall not discriminate against inmates with known disabilities and shall provide reasonable accommodations to ensure access to programs, activities, and services in accordance with the Americans with Disabilities Act and the provisions established in this Policy.

Through policy and practice, the facility staff ensures that inmates with all disabilities listed in 115.16a have an equal opportunity to participate in and benefit from all aspects of the agency's efforts to prevent, detect and respond to sexual abuse and sexual harassment. The ESL inmates interviewed stated they were instructed about PREA compliance and felt safe from sexual abuse. All PREA related information (written information), including postings, brochures and handouts are available in English, and Spanish. The facility has access to translation services for written access in other languages. Staff also may read information to inmates when necessary. Agency and facility policies prohibit inmates to be relied on as readers or any types of assistants, except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate's safety. The warden provided

a memo of record indicating that The South Bay Correctional and Rehabilitation Facility has not utilized inmate interpreters, inmate readers, or other types of inmate assistants this accreditation period. The use of inmates under these circumstances must be justified and documented in a written investigative report. Staff interviewed knew inmates were not to be used for this purpose. Interviews with first responders, medical, mental health and investigative staff confirmed their awareness of the prohibition of using inmate interpreters for PREA compliance functions. Interviews with non-English proficient inmates confirmed the availability and use of the staff interpreters and telephonic interpretive services. Interviews with staff and inmates and an examination of policy/supporting documentation also confirm compliance with this standard. The facility maintains a list of staff members that are bi-lingual in languages other than English. There were no deaf and one legally blind inmate housed at the facility during this audit period. The blind inmate advised he had a specialized computer that he uses to access information and communicate PREA concerns. The inmate has an inmate aide to provide him with movement and read any memos or daily information such as store list, laundry schedules. In interview the inmate stated he did receive notice of my onsite visit and address. He stated he felt safe at this facility and the facility staff and other inmates have been supportive in addressing his disability. The facility has TTY machines and hard of hearing telephones for deaf inmates. There were two elderly inmates that was interviewed due to disabilities. They both indicated they could read the documents on the bulletin board and was familiar with the PREA compliance manager and would notify them if they had any PREA concerns. Compliance of this standard was confirmed by review of Agency Policy, contracting services for language interpretation services and interviews with IPCM, Case Manager, Mental Health Director and nurse and ESL inmates.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following policies, directives and documentation was reviewed in determining compliance with this standard:

GEO Policy 5.1.2-A Sexual Abuse/Assault Prevention and Intervention
Florida Department of Corrections Procedure 208.049- Procedure- Background Investigation and Appointment of Certified Officers
Background Checks for contractors with contact with inmates
Promotion Letter and PREA Promotion Disclosure Waiver
Personnel Records

Career Builders Background Checks Accurate Background Checks

The Departmental Policy for Background Investigation and Appointment of Certified Officers (208.049) does not allow hiring or promotions of anyone who has been convicted of sexual abuse in prison/jail or in community. Background checks are done on all employees, contractors, and volunteers. Background checks (FCIC/NCIC) are conducted on all new hires. The department is connected as a level II employer and any arrest is provided to the department upon entry into the system. All volunteer and contract re-checks are completed annually and are up to date.

All employees, contractors and volunteers have had criminal background checks completed prior to being employed by SBCRF. The facility does not hire or promote anyone who may have contact with inmates, and does not enlist the services of any contractor or volunteer that may have contact with inmates, who has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution; has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force or coercion, or if the victim did not consent or was unable to consent or refuse, or if the person has been civilly or administratively adjudicated to have engaged in the activity. Incidents of sexual harassment are considered in determining whether to hire or promote anyone or to enlist the services of any contractor or volunteer who may have contact with inmates. By contract agreement all staff at SBCRF receive a background check each year. The agency requires that all applicants and employees who may have contact with detainees have a criminal background check. Criminal background checks for all potential employees are completed through a contract with Career Builders and NCIC checks through FDC. For those considered for promotions or who transfer from another facility, will have an internal background check through GEO and an NCIC through Accurate. If an applicant answers on their application they are a prior institutional employee, information from prior institutional employers shall be requested. From information provided on the Pre-Audit Questionnaire, in the past 12 months, Sixty eight (68) criminal background checks were completed.

Prior to a transfer to the facility or promotions, employees background review is conducted utilizing the Accurate Background Checks and answer the following questions.

1. Have you engaged in sexual abuse in a prison, jail, lock up, community confinement facility, Juvenile facility, or other institution? (Please note that sexual abuse in this setting includes sexual acts with the consent of inmate, detainee, resident etc.).
2. Have you ever been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion or if the victim did not consent or was unable to consent or refuse?
3. Have you ever been civilly or administratively adjudicated of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion or if the victim did not consent or was unable to consent or refuse?

Employees and contractors have a duty to disclose such misconduct. Material omissions regarding this type of misconduct would be grounds for termination. The submission of false information by any applicant is grounds for not hiring the applicant. The human resource manager confirmed that the agency attempts to contact prior employers for information on substantiated allegations of sexual abuse or resignations which occurred during a pending investigation of sexual abuse. When an employer requests information of sexual abuse or sexual harassment the employer is provided with the corporate office's personnel to receive this information. Interviews with staff and a review of documentation (PREA Screening Form) confirm compliance with this standard. Five (5) new staff member and five (15 promoted staff and five(5) staff that have been employed at SBCRF for more than five years personnel files were reviewed and found to have receive background checks completed prior to employment, promotion and or having over five year tenure at SBCRF. Five (5) contractors' files were reviewed for compliance. Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following policies, directives and documentation was reviewed in determining compliance with this standard:

FDC Policy 602.053 Prison Rape: Prevention, Detection, and Response
FDC Health Services Bulletin No. 15.03.36
Prison Rape Elimination Act (PREA) Instructor Guide
Medical Employee Rosters
Medical Specialized Training

The facility has full-time medical and mental health care staff on site. The agency requires that all mental health staff receive training beyond initial PREA. In compliance with the requirements Florida Department of Corrections Office of Health Services has developed

and implemented specialized training for mental health and medical staff. This training includes PREA basic and additionally includes specialized training for medical and mental health staff. All mental health and medical staff have received the required specialized training on how to detect and assess signs of sexual abuse and sexual harassment, how to preserve physical evidence of sexual abuse, how to respond effectively and professionally to victims of sexual abuse and sexual harassment, and how and to whom to report allegations or suspicions of sexual abuse and sexual harassment, victim identification, interviewing, reporting and clinical interventions. All medical and mental health staff have received PREA specialized training during the last 12 months. Compliance was determined by review of training curriculum, review of training acknowledgements and interviews with medical and mental health directors.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following policies, directives and documentation was reviewed in determining compliance with this standard:

FDC Policy 601.210 Inmate Orientation

FDC Policy – 601.209 – Reception Process – Initial Classification Policy –

FDC Policy 602.053 – Prison Rape: Prevention, Detection, and Response Intake Screening Packet Intake

Screening Risk of Victimization and Abusiveness Screening

All inmates are assessed during the intake screening process for their risk of being sexually abused or being sexually abusive. The Screening instrument includes screening to determine risk of vulnerability and the risk of being a predator or sexual assaultive inmate. The screening is conducted by Case managers during the intake process. The screening occurs within twenty-four hours after the inmate's arrival. Policies and procedures require the use of a screening instrument (reviewed by auditor) to determine proper housing, bed assignment, work assignment, education, and other program assignments, with the goal of keeping inmates at high risk of being sexually abused/sexually harassed separate from those inmates who are at high risk of being sexually abusive. A medical staff conducts an initial medical screening including questions of prior sexual abuse. Due to the high number of mental health inmates, each inmate that arrives at the facility are seen by a mental health professional within the first hour to conduct one on one interview and conduct additional screening utilizing a mental health screening instrument.

The Screening for Risk of Victimization and Abusiveness include the following:

- Whether the inmate has a mental, physical, or developmental disability.
- The age of the inmate.
- The physical build of the inmate.
- Whether the inmate has previously been incarcerated.
- Whether the inmates' criminal history is exclusively nonviolent
- Whether the inmate has prior convictions for sex offenses against an adult or child.
- Whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming.
- Whether the inmate has previously experienced sexual victimization.
- The inmate's own perception of vulnerability; and
- Whether the inmate is detained solely for civil immigration purposes

Policy requires an inmate's risk level is reassessed within thirty days or when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate's risk of sexual victimization or abusiveness. The facility screening tool addresses all issues required for this standard. Controls are in place to ensure that information received during the screening is only available to staff on a need-to-know basis. Agency policy prohibits inmates from being disciplined for refusing to answer or for not disclosing complete information

in response to questions regarding their mental/physical health, developmental disability, sexual preferences, sexual victimization history and perception of vulnerability. Housing and program assignments are made on a case-by-case basis and inmates are not placed in housing units based solely on their sexual identification or status.

All screening are referral to mental health staff for follow up if the inmate claims history of sexual victimization, history of predator sexual actions or if inmate self admits to being transgender. A review of twenty (20) screening and twenty (20) rescreening revealed that all inmates were screened and rescreened as required by standards. Interviews with case managers supervisor, mental health staff, medical administrator, case managers, and Inmates including target population inmates support the findings of this review.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following policies, directives and documentation was reviewed in determining compliance with this standard:

FDC Policy 602.053 – Prison Rape: Prevention, Detection, and Response Intake Screening Packet Intake

Statement of Search/Shower Preference Form

Screening information is used to determine housing, bed, work assignments within the Facility in order to keep potential victims away from potential abusers. The PREA Manager maintains an "at risk log" submitted by the Classification Supervisor of potential victims and potential abusers determined from the PREA Intake Risk Assessment. The "at risk log" is kept current and includes current housing locations. Following a reported allegation of sexual abuse, the PREA Compliance Manager ensures victims are placed on the "at risk" log as soon as possible and tracked as a potential victim and housed separately from potential abusers pending the outcome of the investigation. If the investigation is determined "unfounded", the victim may be removed from the "at risk" log. Considerations on a case-by-case basis include the inmate's health and safety, operational management, security, and mental health needs. Serious consideration is given to the inmate's own views regarding safety.

Placement and programming assignments for each transgender or intersex inmate must be

reassessed using processes outlined in Gender Dysphoria: In making housing and programming assignments for Transgender or Intersex inmates at the SBCRF, the facility shall consider on a case-by-case basis whether the placement would present management or security problems. In the SBCRF, housing assignments for each Transgender and Intersex individual shall be reassessed every six (6) months to determine any threats to safety experienced by the individual.

Serious consideration shall be given to the inmate's own views with respect to his/her own safety. The Transgender Care Committee will meet to determine proper housing within 72 hours of arrival. The Transgender Care Committee shall at minimum consider: The individual's documented criminal history and passed/present behavior, the individual's physical, mental, medical and special needs, the individual's self-assessment of his/her safety needs (do they feel threatened or at risk of harm), privacy issues, including showers, available beds and/or housing, all records and prior assessments of the effects of any housing, all records and prior assessments of the effects of any housing placement on the individuals health and safety The TCC will attempt to reach consensus on all decisions. Summary notes shall be documented on the Transgender Care Committee Summary for each TCC meeting to include persons attending and conclusions reached. A copy of the summary shall be retained in the individual's institutional file and copy forwarded to the Corporate PREA Coordinator upon completion. LGBTI inmates at the SBCRF shall not be placed in housing units solely based on their identification as LGBTI. Transgender and Intersex Individuals shall be given an opportunity to shower separately from other inmates. SBCRF utilizes a form for inmates to request to shower by themselves and to determine appropriate staff to conduct pat down searches.

Case manager supervisor, medical and mental health personnel meet on a weekly basis to assess the status of any inmates who have made allegations of sexual abuse or sexual assault or who may be exhibiting adjustment problems. The case managers exceed expectations in monitoring, interviewing and reviewing status of all at risk inmates. The facility conducts 6 month reviews (rescreening) on all identified victims and predators to determine their safety. Interviews with residents that claim to be homosexual indicated they were interview by the classification supervisor and are seen on a regular basis by their case managers to determine their safety. Three inmates that claimed that had been sexual abused were interviewed. Two (2) were unfounded and one (1) was unsubstantiated. Each stated they were asked if they would like to be placed in protective housing unit or move to another part of the facility. They were all separated from their accuser. One resident could not name the accuser as he claimed someone came in his room at night. This case was unfounded.

The interview with the Agency's PREA Coordinator confirmed that a transgender inmate's genital status is not the sole criteria for placement in a specific facility. Review of GEO Group Policy 5.1.2-A Sexually Abusive Behavior Prevention and Intervention Program (PREA) and FDC policies provide document to confirm compliance with this standard. There were no Transgender or Intersex inmates housed at SBCRF during the review. Compliance was determined by interviews with agency PREA coordinator, case manager supervisor, three case managers and PCM.

115.43 (b)

- Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Programs to the extent possible? Yes No

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following policies, directives and documentation was reviewed in determining compliance with this standard:

Florida Administrative Code (FAC) 33-602.220 Administrative Confinement
 FAC 33-602.221 Protective Management
 Housing Preference Form
 Statement of Fact

FAC 33-602.221 Protective Management meets the mandates of this standard. The Florida Department of Corrections policy allows victims of sexual abuse to immediately indicate their housing preference. A victim may be housed in protective custody confinement upon their consent or request. When a sexual abuse victim indicates he wishes to remain in general population the facility is required to consider available alternatives. If no alternatives exist, the inmate can be placed in Administrative Confinement involuntarily. Policy states inmates at high risk for sexual victimization shall not be placed in involuntary status unless an assessment of all available alternatives has been made and there is no available means of separating the

victim from the abuser. Florida Administrative Code requires an Institution Classification Team (ICT) member to conduct a weekly review of all inmates on Administrative Confinement. The code requires the ICT conduct a formal assessment of any inmate in Administrative Confinement for more than 30 days and shall prepare a formal assessment and evaluation report after each 30-day period. The report shall include the details for the basis of confinement, what has transpired since the last report, the decision concerning continued confinement and the basis for that decision. FDC policy also mandates that inmates assigned in the protective housing unit receive the same privileges of general population within the limits that allows for their safety and security of the facility. There were no inmates housed in involuntary protective custody for a PREA related allegation or concern based on interview with Restrictive Housing Unit manager and statement of fact from the Warden. Compliance was determined by review of policy, documentation, investigative reviews and interviews with unit correctional staff, inmates case manager supervisor, IPCM and warden.

Inmates will be provided with information on how to report sexual abuse or harassment to facility staff as well as public and/or private agencies not affiliated with SBCRF; and procedures for permitting third-party reports of sexual abuse/harassment on behalf of an inmate. Information for third-party reporting, such as from friends or family can be found on the FDC and GEO websites: This information is given during intake, orientation, and is made available through posters, handbooks, and pamphlets, inmate Request to Staff form to report such incidents or utilize any telephone in the living unit and the mobile phone located in the restrictive housing unit.

All staff will accept reports made verbally, in writing, anonymously, and from third parties. Staff will promptly document any verbal reports and will immediately report any such information to the shift supervisor. A review of supportive documentation and staff/inmate interviews indicated that there are multiple ways (verbally, in writing, anonymously, privately, and from a third party) for inmates to report sexual abuse/sexual harassment. The facility has procedures in place for staff to document all allegations.

Throughout the facility, there are posters and other documents on display which also explain reporting methods. Staff members promptly accept and document all verbal, written, anonymous, private, and third-party reports of alleged abuse/sexual harassment. SBCRF provides to the inmates a thirdparty line to the National Sexual Assault hotline for reporting any abuse or harassment and they can write to the Office of the Inspector General Office. Inmates at the facility are not detained solely for civil immigration purposes. Compliance finding of exceeds is based on the number of ways

inmates and third parties can report allegations of sexual abuse or sexual harassment. Compliance was validated by review of the inmate handbook, posters throughout the facility, company policies on inmate reporting sexual abuse or sexual harassment and interviews with staff and inmates. Interviews with staff and inmates, the observation of posters addressed reporting methods. The agency's policy regarding referral of allegations for sexual abuse and sexual harassment is available on the agency website at: www.geogroup.com (Social Responsibility Section), and FDOC website at www.dc.state.fl.us. GEO Group and FDOC websites were reviewed and also provided reporting opportunities.

Auditor Overall Compliance Determination

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following policies, directives and documentation was reviewed in determining compliance with this standard:

FDC Policy 602.053 Prison Rape: Prevention, Detection, and Response
 FAC – 33-103.011 Time Frames for Inmate Grievances
 FAC – 33-103.005 – Informal Grievance
 FAC – 33-103.017 – Inmate Grievances – Reprisal
 FAC – 33-103.006 – Formal Grievance
 Inmate Handbook
 Inmate Investigation
 Statement of Fact

South Bay Correctional and Rehabilitation Facility utilized the FDC Administrative Remedy

Program. During the initial orientation inmates are provided information on the facility grievance system and provides more information in the inmate handbook. All allegations of sexual abuse/sexual harassment, when received by staff, will immediately be referred for investigation.

Third parties such as fellow inmates, family members, attorneys or outside advocates may assist inmates in filing requests for administrative remedies relating to allegations of sexual abuse and may file on behalf of inmates. The alleged victim must agree to have the request filed on his or her behalf; however, he/she is not required to personally pursue any subsequent steps in the administrative remedy process. If the inmate declines to have the request processed on his or her behalf, the agency shall document the inmate's decision.

The agency shall issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance. (Computation of the 90-day time period does not include time consumed by inmates in preparing any administrative appeal.) If the agency claims the maximum allowable extension of time to respond of up to 70 days per 115.52(d)(3) when the normal time period for response is insufficient to make an appropriate decision, the agency will notify the inmate in writing of any such extension and provide a date by which a decision will be made. At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, an inmate may consider the absence of a response to be a denial at that level.

Administrative Code also prohibits the investigation of the allegation by either staff alleged to be involved in the incident or any staff who may be under their supervision. Policy states that there is no time limit for filing a grievance relating to sexual abuse/sexual harassment. Policy also addresses the filing of emergency administrative remedy requests, if an inmate files the emergency grievance with the institution and believes he is under a substantial risk of imminent sexual abuse, an expedited response will be provided.

There were no grievances alleging sexual abuse and no grievance that involved an extension due to the final decision not being reached within 90 days. Additionally, there were no grievances alleging sexual abuse filed by inmates in which the inmate declined third-party assistance. Inmates are held accountable for manipulative behavior and false allegations. Compliance was determined by review of the agency's policies and procedures, grievance, handbook, brochure and interviews with staff and inmates.

All allegations of sexual abuse/sexual harassment, when received by staff, will immediately be referred for investigation. Inmates are not required to use an informal grievance process and procedures also allow an inmate to submit a grievance alleging sexual abuse/sexual harassment without submitting it to the staff member who is the subject of the complaint. Additionally, policy also prohibits the investigation of the allegation by either staff alleged to be involved in the incident or any staff who may be under their supervision.

This information is posted on each living unit bulletin board and is included in the inmate handbook. Disciplinary action would generally be taken if a grievance were filed in bad faith.

Compliance was determined by review of policies and grievance logs, as well as interview with the Grievance Officer and PCM.

GEO Policy 5.1.2-A Sexual Abuse/Assault Prevention and Intervention
Inmate Handbook
Housing Unit Posters
Memo of Understanding with Abuse and Counseling Treatment (ACT)

The facility does not house inmates solely due to having an immigration detainer. The facility has successfully entered into an agreement with ACT, a local advocacy group to provide emotional support services related to sexual abuse (confirmed through a telephone interview with a victim advocate from the agency). Inmates are informed as part of their orientation process that all telephone calls (except properly placed legal calls) are subject to monitoring and recording and that all mail, except for legal mail, is subject to monitoring as well. Phone call to the ACT program are not monitored. When the auditor called the ACT phone number from the inmate phone system, he was advised that this call would not be monitored by staff. Inmate handbook covers reporting procedures and provides a phone number of the advocacy group and outlines the steps on how inmates may contact the ACT staff for emotional support. The facility has postings of the crisis center hotline phone number and mailing address of the Abuse and Counseling Treatment Crisis Center throughout the facility. The Abuse Counseling Treatment interview indicated they were aware of and always advised inmates of the nature of privileged communication between rape crisis center staff or volunteers and inmates and abide by all State and Federal laws governing confidentiality. Staff at the crisis center undergo over 30 hours of training sponsored by Florida Council Against Sexual Violence and an additional 30 hours by trained ACT staff which include shadowing. Compliance was determined through review of policy, documentation of training records. The inmate handbook provides information to inmates on limits of confidentiality. When calling the ACT, inmates are not required to utilize a pin for confidentiality so there is no concern about facility tracking the phone call. Interviews with mental health staff and advocacy representatives confirmed that prior to providing services inmates are advised of limits of confidentiality. The facility enables reasonable communication between inmates and these organizations and agencies in as confidential a manner as possible. Interviews with staff and inmates, auditor observation of postings in the housing unit, interviews with the local victim advocates and an examination of

policy/documentation confirm compliance with this standard.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following policies, directives and documentation was reviewed in determining compliance with this standard:

GEO Policy 5.1.2-A Sexual Abuse/Assault Prevention and Intervention
FDC Policy 602.053 Prison Rape: Prevention, Detection, and Response
Florida Statue 794.021 Duty to Report Battery/Penalties
Florida Statue 944.35 Authorized Use of Force; Malicious Battery and Sexual Misconduct Prohibited; Reporting Required; Penalties
Investigative Reports
Allegation Report
Referral to OIG
Staff of Fact

FDC Policy 602.053 Prison Rape: Prevention, Detection, and Response mandates that staff, contractors, and volunteers must report and respond to allegations of sexually abusive behavior, regardless of the source of the report. Interviewed staff members were aware of their

duty to immediately report all allegations of sexual abuse, sexual harassment, and retaliation relevant to the PREA standards. The reporting is ordinarily made to the security supervisor on site or PCM but could be made privately or to a third party. Policy requires the information concerning the identity of the alleged inmate victim and the specific facts of the case be shared with staff on a need-to-know basis, because of their involvement with the victim's welfare and/or the investigation of the incident. Staff were aware of the many ways to receive reports from inmates, families, friends or other third parties. Apart from reporting to designated supervisors, staff are not to reveal any information related to a sexual abuse report to anyone. Staff, volunteers, and contractors interviewed knew this information is to be kept confidential and knew whom to report allegations to. Medical and mental health practitioners through their specialized training are informed that they are required to report sexual abuse and to inform inmates of the practitioner's duty to report and the limitations of confidentiality at the initiation of services. Medical and mental health staff interviewed confirmed this practice. The South Bay Correctional and Rehabilitation Facility houses adult males only, none of whom according to their classified level of care are considered vulnerable adults under then Florida Department of Corrections Vulnerable Persons Statute; therefore, this provision of this standard is not applicable to this facility. In interview with the Warden, he confirmed this information. The staff were also aware of the several ways they may report this information to the GEO Group or the facility. GEO has developed several methods for staff to make anonymous reports: GEO website has specific instruction for employees to report directly to GEO PREA coordinator or outside resource for anonymous reporting. A review of established policy, websites and interviews with staff members support the finding that the facility is in compliance with this standard.

The following policies, directives and documentation was reviewed in determining compliance with this standard:

FDC Policy 602.053 Prison Rape: Prevention, Detection, and Response
PREA Response Plan Showing First Responder's Duties
First Responder Cards.

SBCRF policies and directives establishes mandates for staff, volunteer, and contractor's role for inmate allegations of sexual abuse. Policy and several documents (such as the PREA card provided to all staff interviewed on how to respond to allegations of sexual assaults) provide initial guidance to employees regarding the expected coordinated actions to take place in response to an incident of sexual abuse/sexual harassment. Eight random staff including administrative, program and support staff were interviewed. All persons interviewed had received PREA training and all responded they would ask the inmate to not destroy any evidence, would remain with the inmate and notify the closest correctional staff. There were twelve (12) cases of sexual abuse in the last 12 months. In five (5) cases non correctional staff were the first responders. In each case the first responder notified the closest correctional staff and advised the alleged victim to not take any action that could destroy physical evidence. In all cases the staff separate the alleged victim and abuser; preserve and protect any crime scene until appropriate steps can be taken to collect any evidence. If the abuse occurred within a time period that still allows for the collection of physical evidence, request that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating; and/or if the abuse occurred within a time period that still allows for the collection of physical evidence, ensure that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating. Compliance was determined by review of the policy and interview with non-correctional staff and correctional staff. There were three allegation that were reported in time to collect evidence and request inmates to receive a SANE examination.

SBCRF Coordinated Response Plan

The agency policy and facility directives specify the guidelines and procedures that prevent sexual abuse/sexual assault and provide for prompt and effective intervention, in the event a case of abuse or assault occurs. The coordinated response plan includes procedures for the reporting, protecting, physical care, psychological crisis intervention, crime scene preservation, and after-action review. The coordinated response plan provides direction to security staff, medical/mental health practitioners, investigators, staff and community victim advocates, the forensic examination service providers (SANE) and facility leadership. Staff and community service provider interviews confirmed that they were knowledgeable regarding their responsibilities in the coordinated response. During the last 12 months twelve (12) inmates have made allegations of sexual abuse. A review of the investigation files and interviews with medical staff revealed that there were three cases that allowed time for the collection of evidence. All inmates that made allegations of sexual abuse were immediately seen by the medical staff and seen by mental health staff within 24 hours. Staff took appropriate action to protect the inmate, notify medical and mental health. Three inmates were transported to a SANE nurse. In all cases staff separated the inmate and accused predators. The three cases in which the forensic examination occurred are ongoing investigations with law enforcement due to not receiving the test results from the investigative lab. Compliance was determined by review of the policy, investigative files, and interviews with first responders, PCM, warden and inmates who made allegations of sexual assault.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following policies, directives and documentation was reviewed in determining compliance with this standard:

FDC Policy 602.053 Prison Rape: Prevention, Detection, and Response
Retaliation Monitoring Log
Retaliation Monitoring Log
Retaliation Posters
Statement of Fact

FDC Policy 602.053 Prison Rape: Prevention, Detection, and Response mandates that retaliation by staff or inmates against any staff or inmate for reporting an alleged sexual abuse or sexual harassment case is strictly prohibited. The facility investigator and intel staff monitor all reported cases of sexual abuse or sexual harassment for at least 90 days following any such report to ensure retaliation does not occur. In the case of inmates, this monitoring will include thirty-day status checks

by investigative staff. The facility has several protections and reporting measures for inmates. Policy outlines the protection measures available and requires the prompt re-mediation of any type of retaliation, any use of involuntary segregated housing for the inmate who alleged suffering sexual abuse shall only be used after an assessment determines there is no other housing alternative. There is a form for documenting retaliation against staff and inmate retaliation monitoring is documented in the FDOC inmate electronic database. The investigator will conduct periodic status interviews with inmates. A review of the retaliation monitoring confirmed that all inmates that made allegations of sexual abuse were provided retaliation monitoring. Compliance was determined by review of policy, retaliation monitoring form, and interview with inmate who made an allegation of sexual abuse and interviews with investigator, PCM, and Warden.

- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

FDC Policy 108.015 Sexual Battery, Sexual Harassment, and Sexual Misconduct Investigations
FDC Policy 602.053 Prison Rape: Prevention, Detection, and Response
Notice of outcome memo to Inmate

PREA Investigations Finding Notifications Memo address the mandates of this standard. The agency has a policy requiring any inmate who alleges that he suffered sexual abuse at SBCRF be informed, in writing, whether the allegation has been determined to be unsubstantiated, substantiated, or unfounded at the conclusion of the investigation. When an allegation involves staff, the inmate would be informed if the staff member is no longer posted within their housing unit, is no longer employed at the facility, if the staff member were indicted on a charge related to sexual abuse within the facility or the Agency learned that the staff member was convicted on a charge related to sexual abuse. These findings would also be communicated to the inmate if the investigation were completed by an outside agency. When an inmate's allegation that he or she suffered sexual abuse in an agency facility, the agency will inform the inmate as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded.

When the agency did not conduct the investigation into an inmate's allegation of sexual abuse in an agency facility, the agency requests the relevant information from the investigative agency in order to inform the inmate. When an inmate's allegation that he or she has been sexually abused by another inmate, the agency subsequently informs the alleged victim whenever the agency learns that the alleged abuser has been indicted on a charge related to sexual abuse within the facility. When an inmate's allegation that he or she has been sexually abused by another inmate, the agency subsequently informs the alleged victim whenever the agency learns that the alleged abuser has been convicted on a charge related to sexual

abuse within the facility. When the allegation involves staff, the inmate would be informed if the staff member is no longer posted within their housing unit, is no longer employed at the facility, if the staff member were indicted on a charge related to sexual abuse within the facility or the Agency learned that the staff member was convicted on a charge related to sexual abuse. During this auditing period, there were twelve (12) administrative investigations of alleged sexual abuse or sexual harassment that required notification in accordance with this standard. There were eleven (11) notifications provided to inmates. Seven notifications were by Facility investigators and four were by OIG investigator. One inmate had discharges from custody. The documentation of the notifications and inmate interviews support the finding that the facility follows this standard. Compliance with this standard was further determined by a review of policy, staff interviews and inmates and copies of notifications inmate shared with auditor.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following policies, directives and documentation was reviewed in determining compliance with this standard:

FAC 33-601.301 Inmate discipline- General Policy
FAC 33-301.314 Rules of Prohibited Conduct and Penalties for Infractions
FDC 33-601 Close Management
Statement of Fact

South Bay Correctional and Rehabilitation Facility utilized the FDC Inmate Discipline Program for Inmates. The Inmate Handbook address the mandates of this standard. Information on inmate disciplinary sanctions is provided as part of the orientation process upon entry into the facility. Inmates interviewed indicated a good understanding of their freedom to make allegations without consequences for making good faith allegations. The Inmate Discipline Program defines sexual assault of any person, involving non-consensual touching by force or threat of force, as the greatest severity level prohibited act. The program identifies inmates engaging in sexual acts and making sexual proposals or threats to another as a high severity level prohibited act.

Consensual sex or sexual harassment of any nature is prohibited and will result in discipline. Consensual sex between inmates does not constitute sexual abuse. Sanctions are commensurate with the nature and circumstances of the abuse committed, along with the inmate's disciplinary history and the sanctions imposed for comparable offenses by other inmates with similar histories. Inmates are subject to disciplinary sanctions pursuant to the formal disciplinary process defined in the Inmate Discipline Program.

The disciplinary process considers whether an inmate's mental disabilities or mental illness contributed to the inmate's behavior when determining what type of sanction, if any, should be imposed. Prior to disciplinary hearing mental health staff access the above information. The facility considers the offer of therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse. The institution does not discipline inmates who make an allegation in good faith, even if an investigation does not establish evidence sufficient to substantiate the allegation. There were no disciplinary actions regarding PREA violations. Compliance with this standard was determined by

a review of policy/documentation and the inmate discipline process, as well as staff and inmate interviews

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following policies, directives and documentation was reviewed in determining compliance with this standard:

FDC Policy 602.053 Prison Rape: Prevention, Detection, and Response
Initial Screening Instrument
Mental Health Screening Evaluation
Intervention Program
Referral to Mental Health for Prior Victim
Intake Screening
Risk of Victimization and Abusiveness Screening
Mental Health Follow-up
Referral to Mental Health for Prior Perpetrator

Interviews with medical and mental health staff confirm the institution has a very thorough system for collecting medical and mental health information and has the capacity to provide continued re-assessment and follow-up services. Inmates who disclosed prior victimization during screening were offered a follow-up meeting with a medical or mental health practitioner. Additionally, inmates who have previously perpetrated sexual abuse, as indicated during the screening, were offered a follow-up meeting with a mental health practitioner. Treatment services are offered without financial cost to the inmate. This was confirmed by observation and a review of intake screening documents. Screening for prior sexual victimization in any setting is conducted by medical, mental health and case management staff during in-processing procedures. In-processing procedures also screen for previous sexually assaultive behavior in an institutional setting or in the community.

During the intake process a mental health staff member and a medical provider separately interview the incoming inmate. During this process mental health staff offer follow-up meetings with inmate that have history of sexual abuse or are identified as a sexual predator. Staff members ensure that the inmate is offered a follow-up meeting with a mental health practitioner within fourteen (14) days of the intake screening.

Information related to sexual victimization or abusiveness is limited to medical and mental

health practitioners and other staff with a need-to-know for treatment plans, security, housing, work, program assignments and management decisions. Signed and dated informed consents are obtained from inmates before reporting prior sexual victimization which did not occur in an institutional setting.

Medical and mental health providers obtain consent from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting.

All screenings are recorded in the Medical and Mental Health inmate records. All information is handled confidentially and interviews with intake screening staff support a finding that the facility is in compliance with this standard.

Compliance was confirmed by a review of policies and intake screening documents, as well as interviews with inmates who self-identified as having experienced prior victimization during intake. Compliance was also determined by interviews with medical and mental health staff.
