Substantial rewording of Rule 33-601.722 follows. See Florida Administrative Code for present text.

33-601.722 On-Site Visitation Schedule Designation.

(1) The Department will establish an on-site visitation schedule designation for each institution based upon criteria that promote the safety and security of the institution, inmates, staff, and the public. Utilizing the criteria below, the Department will determine whether a “standard” or “modified” visitation schedule designation, as defined in this rule, is best suited to balance the safety and security needs of the institution with the need to provide inmate visitation. The following criteria will be considered, with equal weight being given to each criterion:

(a) Whether institutional staffing levels are sufficient to adequately supervise the visitation, taking into consideration the physical area where visits will take place, the average number of visitors at an institution during the previous six months, and the number of inmates receiving visitors during the previous six months.

(b) The number of times when the number of visitors reached or exceeded 75% occupancy of the institution’s visiting park maximum capacity during the previous six months.

(c) The number of institutional visitation cancellations during the previous six months. Four or more cancellations will support a modified visitation schedule.

(d) The number of reported disturbances, disruptions, or physical or verbal altercations during visitation between or among inmates, staff, or visitors during the previous six months. Two or more reported incidents will support a modified visitation schedule.

(e) The number of reported incidents of contraband introduction by visitors resulting in the interruption, cancellation, or modification of routine facility operations during the previous six months. Four or more reported incidents will support a modified visitation schedule.

(f) The number of other reported safety incidents not covered by paragraphs (1)(a)—(e) occurring immediately prior to, during, or following visitation involving inmates, staff, or the public during the previous six months.

(2) For the purpose of paragraph (1)(e) of this rule, the following definitions will apply:

(a) “Contraband” means any item defined in section 944.47, F.S., or Rule 33-602.203, F.A.C.

(b) “Routine Facility Operations” include attorney/legal visits, canteen supply deliveries, classification appointments, contractor/vendor construction or repair projects, education/vocational classes, external transports, facility/grounds maintenance, facility tours, feeding of meals, food service supply deliveries, health services

appointments/callouts, inmate canteen services, inmate movement, inmate orientation, inmate reception, inmate recreation, inmate visitation, outside work squads, religious programs, special visits, and staff training.

(3) The Department will designate each institution's on-site visitation schedule as one of the following: "standard visitation" or "modified visitation." The Department will provide notice of the on-site visitation schedule designation as provided in paragraph (12)(d) of this rule.

(a) Standard visitation is defined as visitation between the hours of 9:00 a.m. and 3:00 p.m., Eastern Time (ET), or 8:00 a.m. and 2:00 p.m., Central Time (CT), on each Saturday, Sunday, and the days identified in subsections (10) and (11) of this rule.

(b) Modified visitation is defined as visitation between the hours of 9:00 a.m. and 3:00 p.m. ET or 8:00 a.m. and 2:00 p.m. CT on alternating odd-even weekends corresponding to the last digit of an inmate's Department of Corrections ("DC") number. Each year, Week 1 will start on the first Monday in January and continue through and include the following Sunday. Weeks will be numbered consecutively each week thereafter.

1. Inmates with a DC number ending in an odd-numbered digit will be allowed visitation during odd-numbered weeks, and inmates with a DC number ending in an even-numbered digit will be allowed visitation during even-numbered weeks.

2. The visitation period will be each Saturday and Sunday of the odd- or even-numbered week.

3. Notwithstanding whether a week is designated as odd or even, and subject to subsections (4) and (5) of this rule, all inmates will be allowed visitation on the days listed in subsections (9) and (10) of this rule.

(4) Emergency/Temporary Visitation. When the Secretary or Secretary's designee determines it necessary, he may establish an emergency/temporary visitation schedule designation for an individual institution, the institutions in one or more regions, or all institutions statewide. Emergency/temporary visitation includes a reduction or suspension of visitation privileges as warranted by the circumstances to promote the safety and security of an institution, inmates, staff, or the public. The emergency/temporary visitation schedule designation will be limited to the duration of the threat or hazard posed. The following criteria will be considered when determining whether an emergency/temporary visitation schedule designation is appropriate:

(a) An imminent or current disturbance, uprising, strike, or riot, or the immediate aftermath thereof.

(b) An unexpected institutional staffing limitation that creates or poses a significant threat to the safety and security of the institution, inmates, staff, or the public.
