Community Supervision Offender Population Summary

This Monthly Status Report provides a brief profile of Florida's community supervision population. The supervision population consists of all offenders on supervision through specific court placement or other assignment to a community-based program as a condition of prison release. The overall population on the last day of the month is broken down into status types:

- Active - offender is currently supervised in the community per conditions of supervision
- Active-Suspense - offender is unavailable for direct supervision, may be incarcerated, hospital, etc., during supervision term, but is still monitored by a probation officer
- Out of State - Florida offender transfers supervision to another state, the Department of Corrections continues to monitor compliance of conditions
- Absconder - offender absconds from supervision, whereabouts are unknown and court issues a warrant for violation

Supervision types are divided into Original Sentence, Post Prison Release and Other Supervision Types. These represent the actual types of supervision imposed by the court or the Parole Commission. As of February 29, 2008:

- 156,223 offenders on Active or Active-Suspense Community Supervision
 - 151,223 serving an original sentence
 - 4,980 on Post-Prison Release
 - 19 on other types of supervision
 - 1 Unknown supervision type
- 1,815 offenders on electronic monitoring
 - 141 Radio Frequency
 - 1,674 Active Global Positioning
 - 727 Global Positioning under Jessica Lunsford Act
 - 947 Other Global Positioning
- Region II has the highest active supervised population with 32,389 offenders
- The average Probation sentence is 3.7 years (includes life sentences)

Budget Entity Category

The upcoming charts detail the following supervision categories, which are based on budget allocations provided by the Legislature. These categories are mutually exclusive and have been ranked in the order listed below:

- Community Control, including Sex Offender Community Control
- Sex Offender & Post Prison, including Sex Offender Probation, offenders falling under the Public Safety Information Act (PSIA)* and Sexual Predators; and Post Prison, including Parole, Conditional Release, Control Release, and Provisional Release
- Drug Offender Probation
- Pretrial Intervention including Drug Offender Pretrial Intervention
- Probation, including Felony, Misdemeanor and Administrative Probation, and youthful offenders.

These supervision groupings reflect the allocation of officers necessary to meet the needs of specialized caseloads. For example, the ratio of officer to offenders needs to be lower for specialized caseloads of community control and sex offenders than it does for probation or administrative cases.

However, while these groupings provide an accurate picture of the types of offenders that are on supervision, the numbers in this chart may not match those published in the previous section of this report. For example, Table 9: Budget Entity by Region/Circuit (Active Offenders) lists the number of probationers on supervision as 78,120. The previous section lists this number as 80,672 (probation and administrative probation) which is the correct number of offenders on this type of supervision. However, of the 80,672 probationers, 2,552 are sex offenders. Therefore, in this section, these offenders appear in this category rather than "Probation."

*Includes those designated as current and prior PSIA offenders.

Note: There are 396 post-prison sex offenders listed in the Sex Offender Budget Entity (276 active, 120 active-suspense) and 525 sex offenders in the Community Control Budget Entity (359 active, 166 active-suspense).

Supervision Sentence represents the entire length of this period of supervision; the type of supervision listed is that which the offender is currently serving and may not be representative of all sanctions imposed. Sentence lengths of 50 years or longer and life are coded as 50 years for calculation purposes.

*The community control average sentence length may include consecutive sentences (ex. community control followed by probation) and, therefore, may exceed the 2-year statutory maximum for this type of supervision.

** Other Supervision Types - county work release, county parole, conditional pardon and mandatory conditional release.
